

Evonik's New Automotive Website

September 10, 2010

High Speed for Innovations: This is the slogan that thematizes the new website of Evonik's Automotive Industry Team (AIT).

AIT's new website presents innovative solutions for the automotive sector. Within AIT, there are four key development fields: Lightweight Design, Fuel Savings and Emission Reduction, Surface Technologies and Lighting Technologies. Visitors who want to know more about AIT can get an overview of its work, information on conferences and motor sports, and the latest press releases.

Visitors can search for Evonik products by automotive application area; each product is summarized and includes information on its characteristics and uses. A further link brings the user straight to the homepage of the Evonik business unit, where he or she can find more detailed information.

Rounding off the new website are contact details for the regional Automotive Industry Teams and the automotive specialists with Evonik Industries in Germany. The website exists in both German and English language versions.

About Evonik

Evonik Industries is the creative industrial group from Germany. In our core business of specialty chemicals, we are a global leader. In addition, Evonik is an expert in power generation from hard coal and renewable energies, and one of the largest private residential real estate companies in Germany. Our company's performance is shaped by creativity, specialization, continuous self-renewal, and reliability.
